About Me

"I am a highly motivated 11th-grade student and NEET aspirant currently studying at Aakash Institute, Mall Road, Kanpur. I am a passionate Frontend Developer and Cybersecurity Enthusiast with a deep interest in building secure, user-centric web applications. My goal is to leverage my skills in React, Python, and Ethical Hacking to bridge the gap between Healthcare and Technology, creating innovative solutions that make a real-world impact."

Work Experience

- Independent Frontend Developer (2024 – Present): Building responsive web applications and personal projects using React.js and TypeScript.

Education

Class 11 (Science - PCB) | Aakash Institute, Mall Road, Kanpur
Currently preparing for NEET with a focus on Medical Sciences.
Class 10 (Secondary School) | Ram Lakhan Bhatt International School
Completed with an impressive score of 87%.

Skill

Software Development: Proficient in building responsive web applications using React.js, TypeScript, and Python.
Cybersecurity: Specialized in Ethical Hacking, Network Scanning, and system vulnerability assessment
.
